Subject:- Recommendation Letter

To Whom It May Concern

It is with great pleasure that I write this letter of recommendation for **Hiwot Tariku Menjiye**, who successfully completed a three-month internship at **Tina Mart (Tina Business Group PLC)** From **July, 2025 - September, 2025**.

During her internship period, Hiwot worked closely with our team on real-world projects, including improving our affiliate company **Ibex.et's website** using **Laravel**. She demonstrated solid technical skills in both **back-end and front-end development**, showing professionalism, dedication, and a strong ability to adapt to complex tasks.

Hiwot consistently delivered high-quality work and proved to be a reliable, productive, and enthusiastic team member. She has shown the potential to excel in any environment that requires strong problem-solving abilities, technical expertise, and collaboration.

We at Tina Mart **highly recommend her** for job opportunities, internships, and other professional engagements. Furthermore, we look forward to future opportunities to collaborate with her and wish her every success in her career and personal endeavors.

Sincerely,

Ezedin Kamil
